Many people are afraid of ghosts. Few people are afraid of germs. Yet the ghost is a fancy and the germ is a fact. If the germ could be magnified to the size of a ghost, it would appear as a terrible monster, breathing fire, and breathing death. Germs can't be avoided. They are in the air we breathe, the water we drink.

The germ can only prosper when the conditions of the system give it free scope to establish itself and develop. When there is a deficiency of vital force, the germ is able to establish itself. It is a law of nature that the germ will prosper in a weak system. It is a law of nature that the germ will prosper in a weak system. It is a law of nature that the germ will prosper in a weak system.

SCIENCE PREVENTS BALDNESS.

The Fatal Germ and Its Remedy Now Facts of Science.

It is the rarest thing in the world for a man to be necessarily bald. No man whose hair is not dead at the roots, need be bald if he will use Newbro's Herpicide, the new scalp antiseptic. Herpicide destroys the germ that cuts the hair off at the root, and cleans the scalp of dandruff and leaves it in a perfectly healthy condition. Mr. Mannett, of the Maryland Hotel, Butte, Mont., was entirely bald. In less than a month Herpicide had removed the enemies of hair growth, and nature did its work by covering his head with thick hair an inch long, and in six weeks he had a normal suit of hair. Sold by leading druggists. Send for a sample to The Herpicide Co., Detroit, Mich.

Bloody Conflicts in Russia.

Two bloody conflicts occurred at Ekater-

inoslaf, Russia, yesterday between the

troops and demonstrators. The first took

place opposite the municipal building

and the second near the Pushkin

monument. Numbers were killed or

wounded in both instances by the vol-

leys fired by the soldiers. The demon-

strators near the municipal build-

ings refused to disperse when order-

ed and erected barricades. A meeting

of students of the schools who are on

strike was dispersed by the police, who

made free use of their whips. Many of

the students were injured. The town

was in darkness last evening and the

military were parading the streets. The

telephone and telegraph wires are cut

and it is reported that the strikers have

destroyed the permanent railroad bed.

Fifteen persons were killed and twenty-

six injured Tuesday in a conflict between

troops and strikers at the Brinsk works,

where the strikers had erected wire en-

tanglements.

The serious situation caused by the big

railway strike in Russia has resulted in

the Czar being isolated at Tsarskoe-Selo,

so far as mail advice is concerned, ac-

cording to information received at the

State Department. The advice came in

the nature of a cablegram from Spencer

S. Eddy, the American charge d'affaires

at St. Petersburg. It was dated Wed-

nesday at Tsarskoe-Selo and read as fol-

lows: "All postal communication cut off

by the railway strike."

Moscow resembles a State of siege.

The price of meat has trebled, and there

is great distress among the poor. Many

people living in neighboring provinces

and who went to Moscow are camping in

the streets, and 2,000 persons are living in

cars. On the Kazan line the stations are

in the hands of the troops. The post

and telegraph offices are strongly

guarded by Cossacks. The populace is

becoming panicky. A young girl em-

ployed at a railroad station fell on her

knees before the strikers and pleaded

with them not to surrender, declaring

that they should continue the struggle

for material reasons, but for the ac-

chievement of human liberty. The

crowd responded by singing the "Mar-

sellaise."

Received by the Pope.

The Pope yesterday received Lieut.

Frank E. Ridgley, Paymaster Hugh R.

Tusley, Prof. William Snyder Eichel-

berger, and Prof. Frank Bowers Littell,

of the Naval Observatory at Washing-

ton, and forty-eight Catholic sailors of

and with them devoted her time to the

fads and fancies of dress. With them

she talked of sweethearts, and of the ideal

man she hoped to meet some day and be-

come his wife. With enough money to

satisfy all of her whims, she went to

Brooklyn, and took lodgings with two

girl friends from the South. There they

entertained their girl friends and men.

She gave most of her time and money to

charity. Mr. Best as he should now be

called, will move to another city, wear

men's clothes, shave regularly instead of

at irregular times as in the past, when a

sprouting beard shamed the woman he

thought himself to be; discard the veil

that he had to wear to hide his increas-

ingly masculine features, and be a man.

Mince Pie Cause of Divorce.

Mince pie has separated Charles and

Margaret Lager, of Chicago. The work

begun by the pie was completed in the

divorce court before Judge Mack last

Saturday. The Lagers were married in

1900 in Buffalo. The bride was 18

years old. She admitted on the witness

stand that her mother had given her a

special course in the culinary art. "I

could bake good pies, too," declared the

wife, "but once I failed—just once. I

made a mince pie and forgot some in-

gredients. Charles tasted it and began

an awful sputtering. Then he jumped

up and struck me in the face." The

court gave her a divorce.

Could Not Be Better.

The untimely success of Chamberlain's

Colic, Cholera and Diarrhoea Remedy has

won for it a wide reputation and many

people throughout the country will agree

with Mr. Chas. W. Mattison, of Millford,

Va., who says: "It works like magic, and

is the best preparation I know of. It

couldn't be any better." He had a

serious attack of dysentery and was ad-

vised to try a bottle of this remedy,

which he did, with the result that im-

mediate relief was obtained. For sale

by Gibson & Timberman and W. F.

Creighton & Co.

Frightful Suffering Relieved

Suffering frightfully from the virulent

poisons of undigested food, C. G. Grayson,

of Lulu, Miss., took Dr. King's New Life Pills,

"with the result," he writes, "that I was

"cured." All stomach and bowel disorders

give way to their tonic, laxative properties.
